

Jennifer Leuer

Chief Executive Officer

Jennifer Leuer is Chief Executive Officer of CyberScout, a global leader in identity theft resolution, data defense and employee benefits services. She entered the role in 2019, bringing with her 20 years of experience in launching, scaling and optimizing business lines across well-known organizations including Experian and Auction.com.

Prior to taking the helm at CyberScout, Leuer held a variety of senior positions during two tenures with Experian. Among these roles, she was President of Experian Partner Solutions, which provided a spectrum of services enabling partners to acquire, engage and retain customers. In addition, she served as General Manager of ProtectMyID.com and Vice President of Compliance and Risk Management for several Experian consumer-direct businesses, establishing and leading risk management and information security functions.

Leuer also spent several years as a General Manager at Auction.com, where she led the consumer-to-consumer residential and commercial real estate groups. Early in her career, Leuer was a reporter in the newspaper publishing industry.

Leuer earned her MBA from the University of California, Irvine, Paul Merage School of Business, and her bachelor's degree in Communications from California State University, Fullerton. She is also a graduate of the College of Executive Coaching's Intensive Coach Training Program. Leuer serves on the Board of Directors for BigRentz, the nation's largest online equipment rental network. Her non-profit service includes board roles with OCTANe and OneOC.
